The Importance of Environmental Carcinogenesis

Margaret L. Kripke, Ph.D.
Professor Emeritus
U.T.M.D. Anderson Cancer Center
Houston, TX
REDUCING ENVIRONMENTAL CANCER RISK

What We Can Do Now
ASSUMPTIONS

CHEMICALS ARE TESTED

CARCINOGENS ARE REGULATED

REGULATIONS ARE ENFORCED
NEW INFORMATION

INCIDENCE OF CHILDHOOD CANCER
INCIDENCE OF NON-TOBACCO-RELATED CANCERS
ENDOCRINE DISRUPTORS = INCIDENCE OF BREAST CANCERS

CHEMICALS CAN ACT SYNERGISTICALLY
